DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. **Claims 1, 3-9, 11-20, 22 and 28-31 are rejected under 35 U.S.C. 102(b) as being anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Otsubo et al (JP 2001160576).**

Otsubo et al disclose a process chamber (Fig 6) comprising a substrate support member (41), an interferometer end point detection system (48a, 48b, 48c, Abstract and paragraphs 43, and 60-66) mounted below substrate and configured to detect a peripheral region of the substrate. Further the interferometer end point system comprises a light source (15) and a light detector (22) and a computer for calculating a spectra (23) to determine the endpoint.

Regarding the limitation of test pattern and size of the substrate it is noted that reference to contents of an apparatus to contents thereof during an intended operation are of no significance in determining patentability of the apparatus claim. Ex parte Thibault, 164 USPQ 666, 667 (Bd. App. 1969).

Further, regarding claims 7, 18 and 29-31 the region to be detected is an intended use limitation.

Response to Arguments

Applicant's arguments filed 11/20/2006 have been fully considered but they are moot in view of new grounds of rejection.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
